HOW DOES A TRAVELER KNOW IF THEY ARE TSA PRE✓® ELIGIBLE FOR A PARTICULAR FLIGHT?

Travelers who have been cleared for TSA Pre✓® will have information embedded in the barcode of their boarding pass. Once the boarding pass is scanned at the checkpoint, the passenger may be referred to the TSA Pre✓® lane. Participating airlines will also print a TSA Pre✓® indicator directly on the boarding pass.

HOW DOES TSA PRE✓® WORK AT THE AIRPORT?

TSA Pre✓® participants use dedicated TSA Pre✓® lanes at participating airports for screening benefits which include not being required to remove the following items: 3-1-1 compliant bag from carry-on, laptop from bag, shoes, light outerwear/jacket and belt. Travelers who are eligible for TSA Pre✓® should follow these steps at the airport to experience TSA Pre✓®:

- Present your boarding pass and Government-issued ID to the Travel Document Checker
- Have the Travel Document Checker scan your boarding pass barcode
- If you are deemed eligible, proceed to the TSA Pre✓® lane; your children age 12 and under may go with you.
- Keep your shoes and belt on, your laptop in its case, and your 3-1-1 compliant bag in your carry-on.

NOTE: TSA will always incorporate random and unpredictable security measures throughout the airport and thus, no individual will ever be guaranteed expedited screening.
